Summer Surgery Preceptorship and/or Research -RENO

Description/ Expectations of Summer Experience:

Students who are between their first and second year of medical school and have a strong interest in surgery, specialties including bariatric, cardiothoracic, colorectal, ENT/otolaryngology, general, gynecologic oncology, neurosurgery, ophthalmology, orthopedic surgery (sports medicine/ hand/ spine), plastic/reconstructive, surgical oncology, and vascular, will participate with, depending on the site, an assigned preceptor/ mentor during a 4 week long period. The student will attend with the physicians (or team of attending, residents, fellows and third and fourth year students) on all shifts, including day, evening, and night shifts, in addition they may be asked to participate with their preceptor for call.

There are approximately 4 positions available in Reno for the preceptorship and some positions possible for research.

Please complete the required information below and include a description on why you would like to have the opportunity to experience a preceptorship and/or research in surgery this summer. Please email or return this application to Amy McFarland by March 1st via amcfarland@medicine.nevada.edu or Mailstop 0342/ PME 224, for questions please call 775-682-7734. All applicants inquiring to participate in a preceptorship or conducting research may be asked to meet with the Surgery Program committee by appointment.
