Southern Nevada ACP Abstract Competition Timeline

November 5, 2015

Residents

Clinical Vignettes

9:00 - Manas Agastya – Hepatocellular Carcinoma: A Diagnostic Challenge

9:10 - Dulip Ratnasoma – Biopsy Proven Rhabomyolysis due Daptomycin Therapy with Normal Creatine Kinase

9:20 - Moiz Dawood – Hidden! How Mantle Cell Lymphoma can Present as Chronic EBV

9:30 - Jenelle Hao – Unique cause of massive hemoptysis

9:40 - Syeda Simra Khusro – Lytic lesions and brachial plexopathy: An unusual presentation

9:50 - BREAK

10:00 - Pannaga Malalur – Occasionally You'll Find a Zebra in Gynecomastia

10:10 - Ali Malik – Tricuspid Valve Avulsion after blunt chest trauma

10:20 - Subhasree Panhangam – Unpredicted cause of thrombocytopenia

10:30 - Ha Phan – Complex cystic renal masses and then decision for surgery

10:40 - Phillip Riberip – Unilateral conduction hearing loss due to central venous occlusion

10:50 - Ian Frani – Moonflower: A Growing Concern for Abuse and Toxicity

11:00 - BREAK

Research

11:10 - Ian Frani - Preliminary Analysis: Does the Addition of Dialy Chlorhexidine Bathing in the ICU Affect the Rate of ICU-Onset Bactermia?

11:20 - Yaser Dawood – Cancer, Depression and Healthcare Coverage in the State of Nevada: A Retrospective Crosssectional Study
11:30 - Ghaila Keng – A New Antibiotic Risk Score (ARS) is more Strongly Associated with Clostridium Difficile Infection (CDI) than Other Demographic

11:40 - Pannaga Malalur – Temporal and regional trends in acute pancreatitis: Does mortality or severity vary with day of admission

Students

Clinical Vignettes

9:00 - Jessica Kim – Treatment of an acute exacerbation of trigeminal neuralgia with intravenous phenytoin

9:10 - Husna Najand – An Unusual Presentation of SIADH

9:30 - Paul Anthea – Not safe for human consumption: Synthetic cannabinoids causing fatal acute rhabomyolyis in 2 young men

9:40 – BREAK

9:50 - Paul Abraham – Fatal non-traumatic bladder rupture by short-term Foley catheter failure

10:00 - Shreesh Prasad – Primary Abdominal Tuberculosis in an Ethiopian Immigrant

10:10 - Christopher Schmidseder – Empyema masquerading as acute pancreatitis and acute viral syndrome in a middle-aged woman

10:20 – BREAK

Research

10:30 - Brittany Bartolome – Retrospective Reivew of Transjugular Liver Biopsies in Left Lobe Only Transplants

10:40 - Fan Huijun – Cardiovascular Responses to Selected Cranial Osteopathic Manipulation in Healthy Young Women

10:50 - Guillen Barre – Iron Deficiency Anemia and Undernourishment in Residents of Belen, Iquitos, and Peru
11:00 - BREAK

11:10 - Michael Korczynski – The Antimicrobial Activity of Extract isolated from Parmelia Vagans

11:20 - Nagib Qureshi – Osteopontin-Induced Modulation of Pulmonary Immune Response and Concomitant Lung Damage in RSh Infection of Different Age Groups
