NEVADA HEALTH WORKFORCE RESEARCH CENTER

Graduate Medical Education Trends in Nevada – 2026 is a publication from the Nevada Health Workforce Research Center in the Office of Statewide Initiatives at the University of Nevada, Reno School of Medicine.

The mission of the Office of Statewide Initiatives is to improve the health of Nevadans through statewide engagement, education, and research.

The purpose of the Nevada Health Workforce Research Center is to improve the collection and analysis of data on health workforce supply and demand to enhance health workforce planning and development in Nevada.

Additional resources may be found at Office of Statewide

Graduate Medical Education Trends in Nevada – 2026

Graduate Medical Education Trends in Nevada – 2026 contains current information about physicians who have completed accredited residency and fellowship programs in Nevada. This research brief presents data from an annual survey of physicians completing Graduate Medical Education (GME) in Nevada.

The survey has been undertaken by the Office of Statewide Initiatives (OSI) at the University of Nevada, Reno School of Medicine since 2004. Surveys were received from 191 of 296 GME graduates in Nevada, a response rate of 64.5%. The OSI survey data contained in this report is supplemented with licensure data from the Nevada State Board of Medical Examiners and the Nevada State Board of Osteopathic Medicine to determine overall retention rates. The report utilizes data collected by the Accreditation Council for Graduate Medical Education (ACGME).

Highlights of this year's report include:

- Since 2004, the number of ACGME residency programs in Nevada increased from 10 to 45 (350.0%) and the number of sponsoring institutions increased from 1 to 8 (700.0%). Since 2005, fellowships increased from 2 to 29. These increases are reflected in the substantial growth in the number of residents, fellows, and graduates (Figures 1 to 5).
- In 2026, 48.6% of all GME graduates in Nevada reported that they will stay to begin clinical practice or pursue further training, while 51.4% plan to leave (Figure 6).
- In Southern Nevada, 49.2% of GME graduates will remain, as compared to 50.8% who will leave the state (Figure 7).
- In Northern Nevada, 45.2% of GME graduates will stay, while 54.8% are planning to leave the state (Figure 8).
- Over the past ten years, 43.6% of 2,220 GME graduates planned to remain in Nevada for clinical practice or further training at the time of graduation, while 56.3% intended to leave (Figures 9 to 11).
- Figures 12 to 14 highlight the steady growth in the number of GME graduates (99.1%) across the state over the past decade – however, the same data underscore the enduring problem of GME graduates (22.9%) who leave the state for subspecialty training or fellowship opportunities which are in short supply or do not exist in Nevada.
- Over the past decade, the number of physicians completing primary care GME programs in Nevada increased from 69 graduates in 2017 to 155 in 2026 (124.6%), with most of the growth occurring in Southern Nevada (Figure 15).

- Over the past decade, the number of physicians completing medical and surgical specialty GME programs in Nevada rose from 53 graduates in 2017 to 139 in 2026 (162.2%), with 92.8% of the growth taking place in Southern Nevada (Figure 16).
- Figure 17 documents the steady growth of GME graduates from primary care residency programs across the state – however, these figures also underscore the growing number of primary care graduates unable to find fellowship opportunities in Nevada.
- Figures 18 to 20 provide information on employment barriers, employment incentives, and other factors influencing graduates' decision to remain in or leave the state.

A profile of GME graduates in Nevada in 2026 is contained in Appendix A. The survey instrument is contained in Appendix B. ACGME-accredited programs in Nevada are listed in Appendix C. Graduates by GME program and sponsoring institution are listed in Appendix D. Appendices E and F provide program level data on the number and percentage of GME graduates who remained in Nevada at the time of graduation over the past decade.

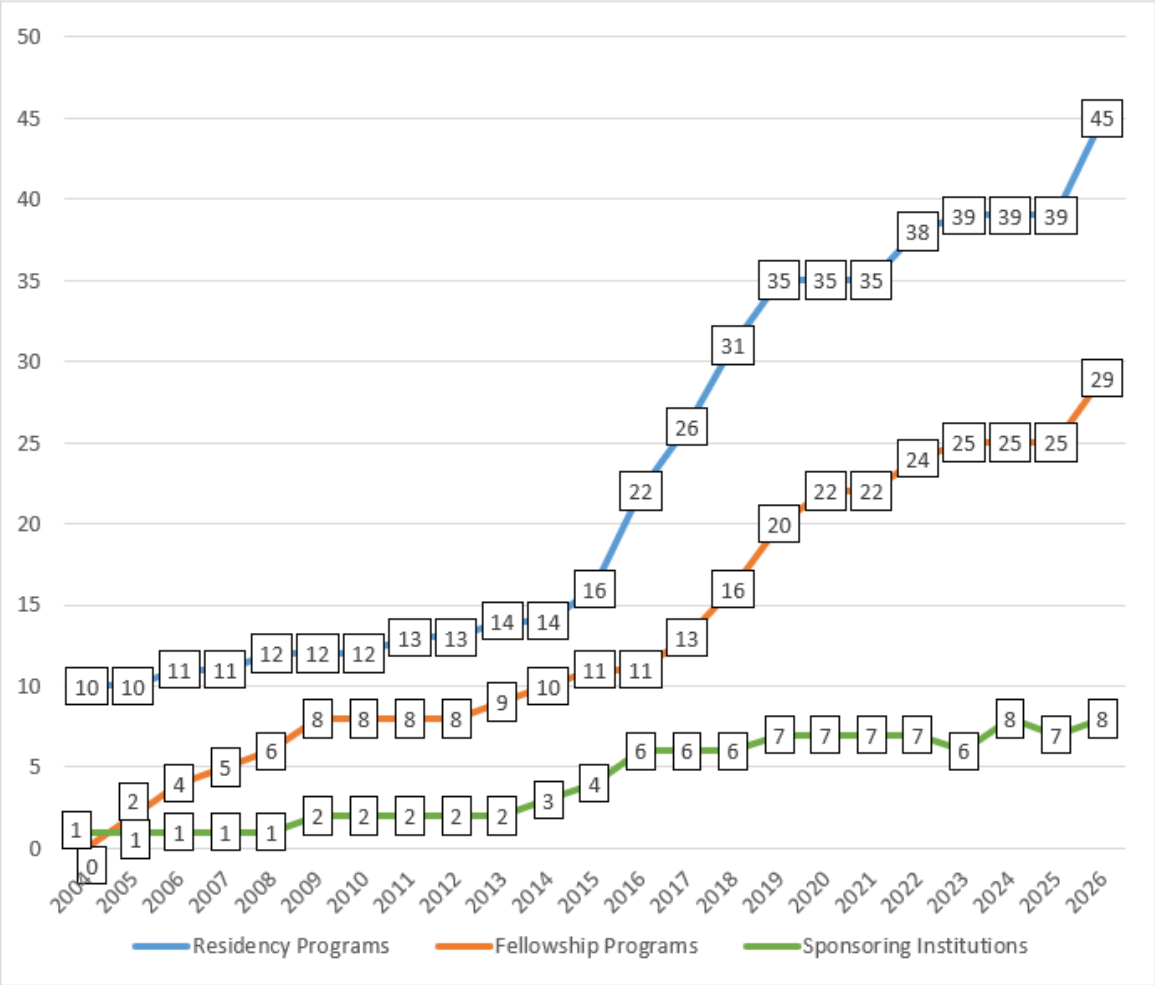

The authors of this report would like to acknowledge the assistance of the program coordinators, program directors, and designated institutional officials (DIO) from the following GME sponsoring institutions:

- Dignity Health GME Programs
- HCA Healthcare Sunrise Health GME
- Kirk Kerkorian School of Medicine at UNLV
- Mike O'Callaghan Military Medical Center – residents not part of the survey
- OPTI West / Valley Hospital, NV – a CA GME program operating in Nevada
- University Medical Center of Southern Nevada
- University of Nevada, Reno School of Medicine
- Valley Health System

According to the Accreditation Council on Graduate Medical Education (ACGME), from 2004 to 2026, the number of residency programs in Nevada increased from 10 to 45 (350.0%). These numbers include transitional years and preliminary years. The number of sponsoring institutions increased from 1 to 7 (700.0%). Most of this growth has been a direct result of the Governor's GME grant program which began in 2016 (Figure 1).

ACGME Accredited Institutions are Dignity Health, HCA Healthcare Sunrise Health, Kirk Kerkorian SOM at UNLV, Mike O'Callaghan Military Medical Center, UNR SOM, and Valley Health System. OPTI West is accredited in California with a GME system at Valley Hospital. University Medical Center of Southern Nevada is a newly accredited institution.

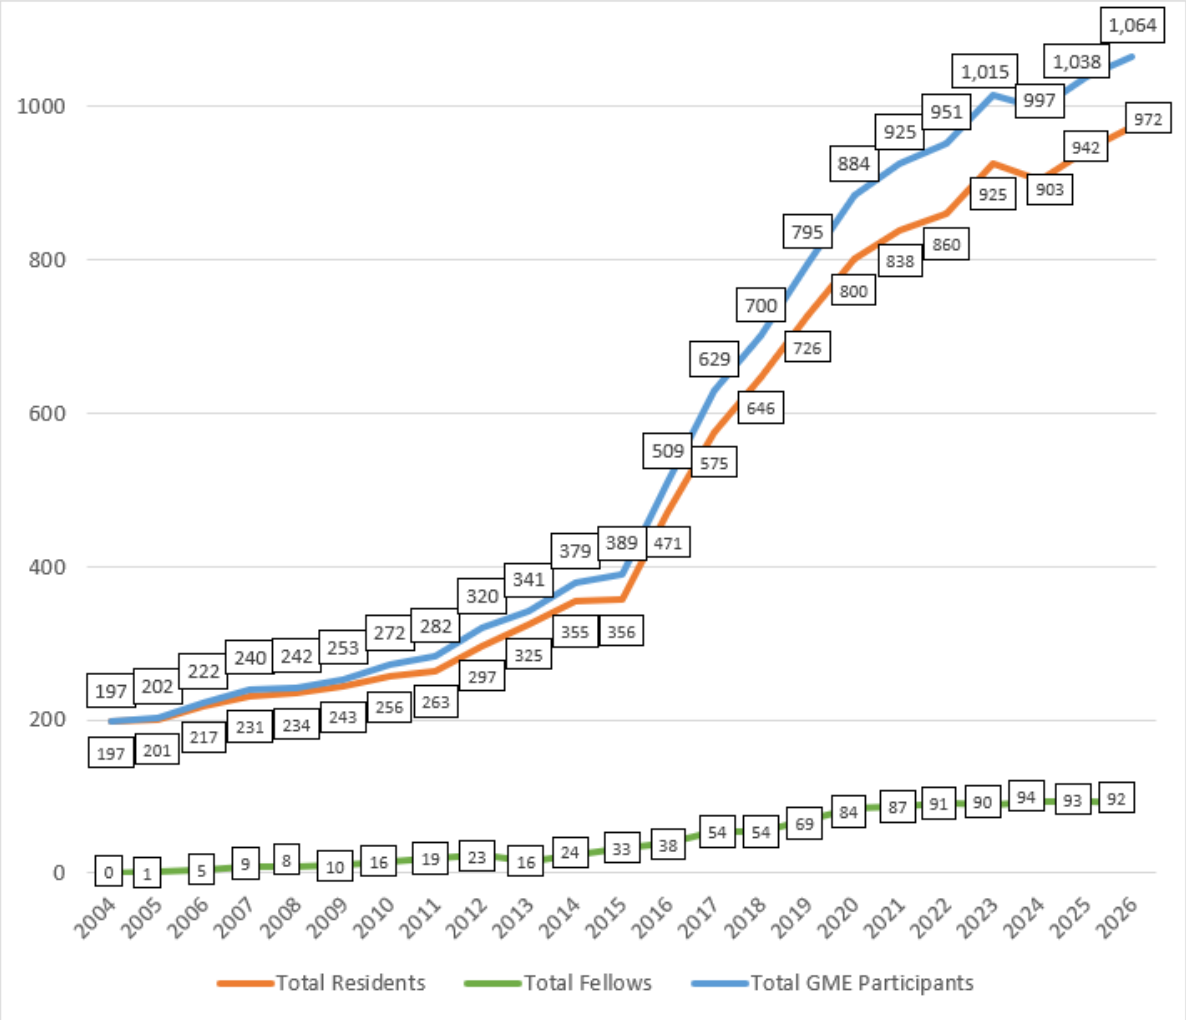

Figure 1: Number of ACGME-Accredited Sponsoring Institutions and Specialty Programs in Nevada – 2004 to 2026

Source: Accreditation Council on Graduate Medical Education (2026).

Figure 2 highlights that the number of residents and fellows in Nevada increased from 197 in 2004 to 1,064 in 2026 (440.1%). Most of this growth is due to the increase in residency programs.

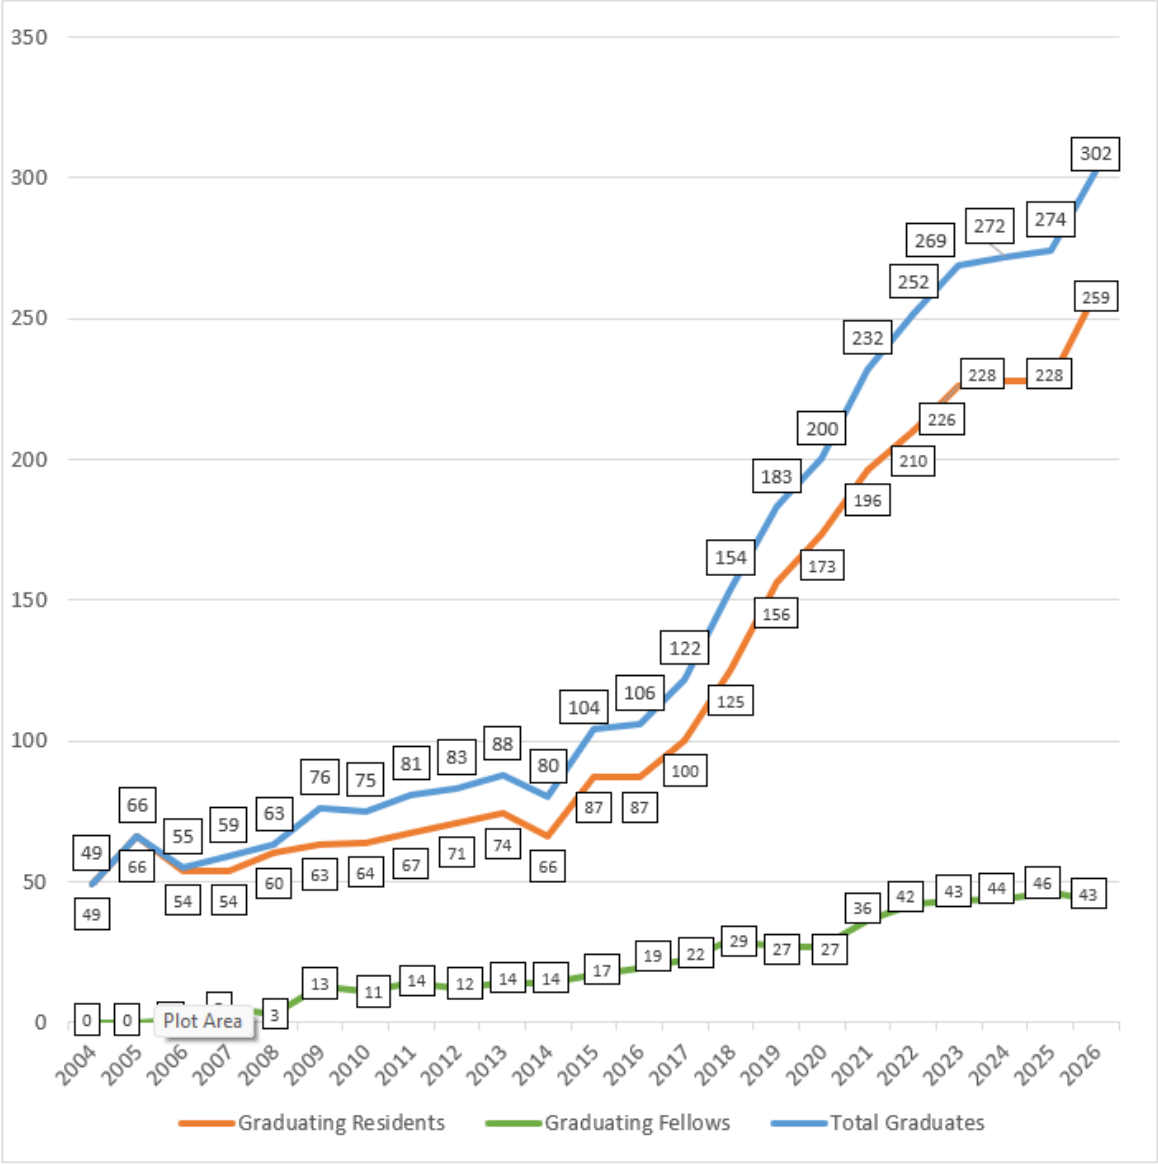

Figure 2: Number of Physicians in ACGME-Accredited Residency and Fellowship Programs in Nevada from 2004 to 2026

Source: Accreditation Council on Graduate Medical Education (2026). Nevada Health Workforce Research Center (2026).

Figure 3 shows the number of physicians completing ACGME programs in Nevada. The number of GME graduates in Nevada increased from 49 to 302 (516.3%) between 2004 and 2026. There were no ACGME fellowship programs in 2004. The increase to 43 fellowships shows the increased demand for additional training.

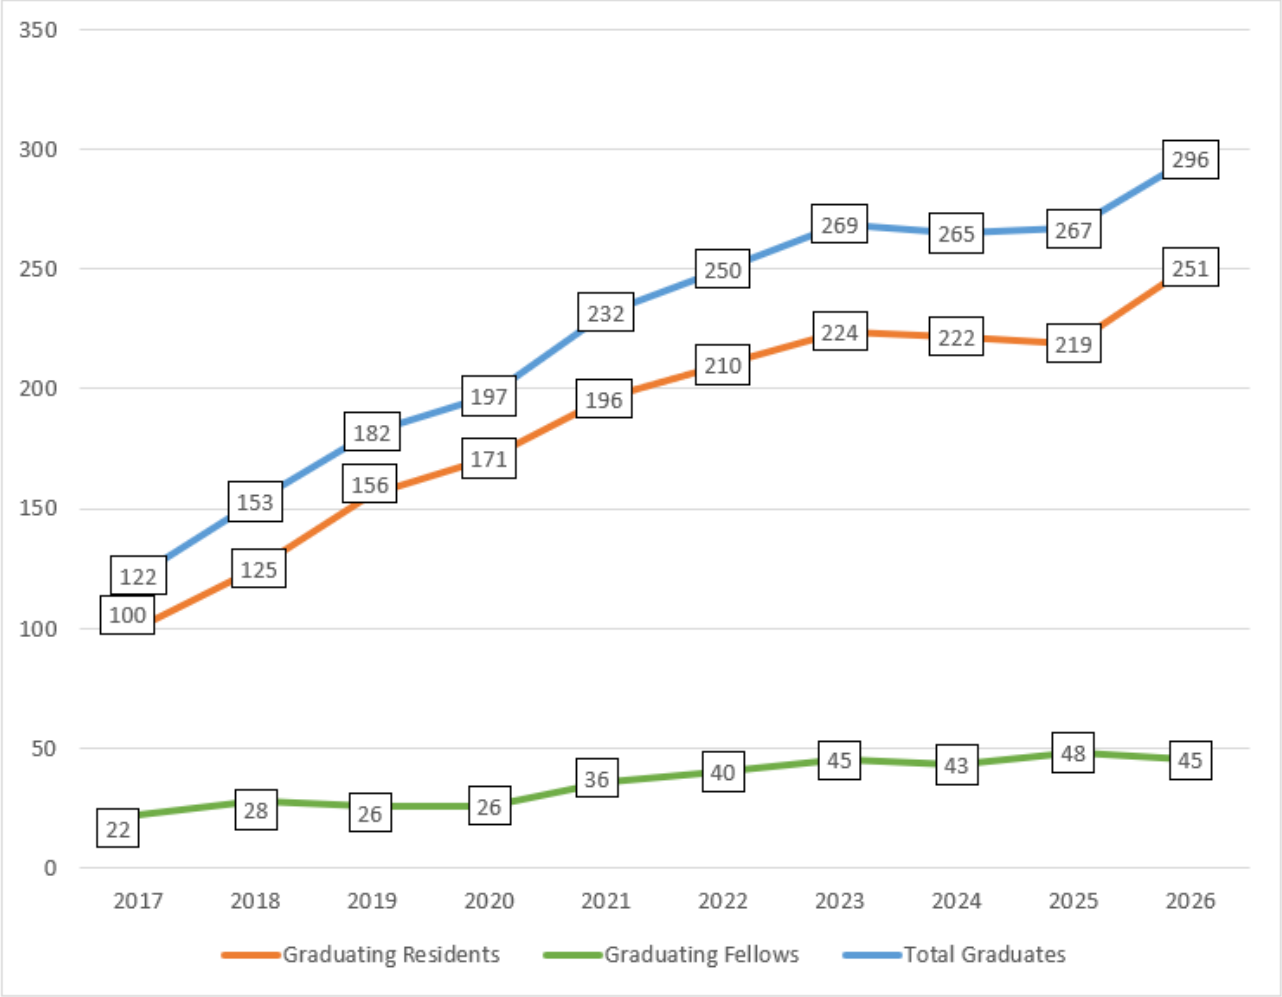

Figure 3: Number of Physicians Completing ACGME-Accredited Residency and Fellowship Programs in Nevada from 2004 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 4 presents data from the Nevada Health Workforce Research Center's annual survey of graduating residents and fellows. The number of physicians completing GME in Nevada grew from 122 graduates in 2017 to 296 graduates in 2026 (142.6%). The number of graduating residents in Nevada grew from 100 to 251 (151.0%). The number of graduating fellows in Nevada grew from 22 to 45 (104.5%).

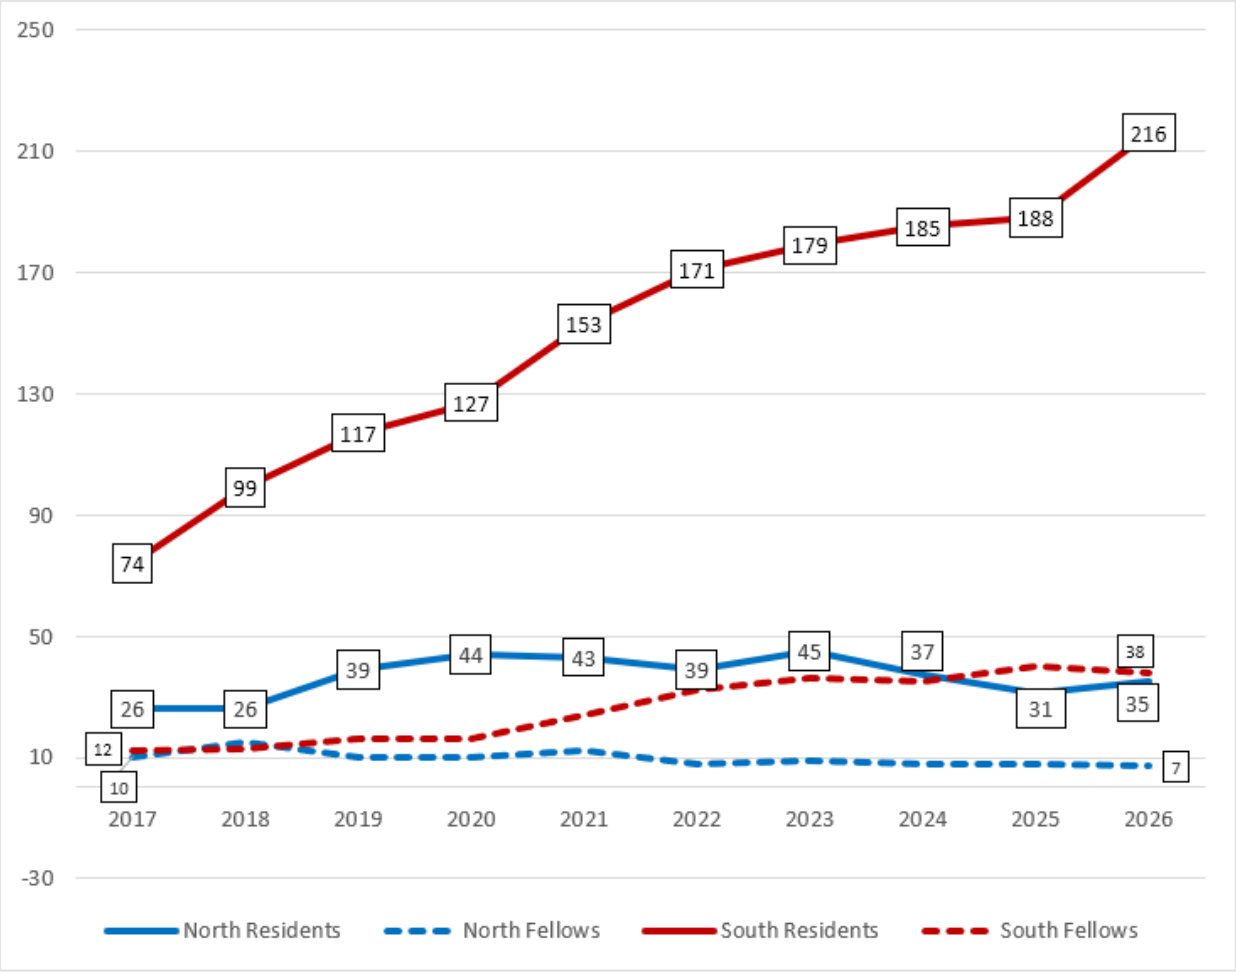

Figure 4: GME Graduates in Nevada – 2017 to 2026

Source: Nevada Health Workforce Research Center

Figure 5 highlights the distribution of residents and fellows completing GME programs in Southern or Northern Nevada. Residents in Southern Nevada grew from 74 graduates in 2017 to 216 graduates in 2026, a growth rate of 191.9%. The number of residents graduating in Northern Nevada grew from 26 to 35, a growth rate of 34.6%. There were 12 graduating fellows in 2017 and 38 in 2026, a growth rate of 216.7% in Southern Nevada. In Northern Nevada, the number of graduating fellows has been for the past decade.

Figure 5: GME Graduates by Region in Nevada – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figures 6 through 8 summarize the employment, training, and location plans of GME graduates from the GME survey data and their licensure data in 2026. From this data, 48.6% of all GME graduates in Nevada will stay to begin clinical practice or pursue further training, while 51.4% plan to leave. In Southern Nevada, 49.8% of GME graduates will remain in the state as compared to 50.2% who will leave. In Northern Nevada, 45.2% of GME graduates will stay in the state and 54.8% plan to leave.

Figure 6: Employment, Training, and Location Plans of GME Graduates in Nevada – 2026

Nevada Retention Status	Beginning Clinical Practice	Continuing Training	Total
Remaining in Nevada	**122** (41.2%)	**22** (7.4%)	**144** (48.6%)
Leaving Nevada	**49** (16.6%)	**103** (34.8%)	**152** (51.4%)
Total	**171** (57.8%)	**125** (42.2%)	**296** (100.0%)

Figure 7: Plans of GME Graduates in Southern Nevada – 2026

Nevada Retention Status	Beginning Clinical Practice	Continuing Training	Total
Remaining in Nevada	**108** (42.5%)	**17** (6.7%)	**125** (49.2%)
Leaving Nevada	**38** (16.5%)	**91** (35.8%)	**129** (50.8%)
Total	**146** (57.5%)	**108** (42.5%)	**254** (100.0%)

Source: Nevada Health Workforce Research Center (2026).

Figure 12 highlights that the number of physicians completing GME in Nevada increased from 122 graduates in 2017 to 296 in 2026 (142.6%) from their GME survey data and their licensure status. The percentage of graduates remaining in Nevada has fluctuated from year to year, with a high of 48.6% in 2026 and a low of 29.5% in 2017. Over the past decade, an average of 22.9% of GME graduates left the state to continue subspecialty training or seek fellowship opportunities that are in short supply or do not exist in Nevada.

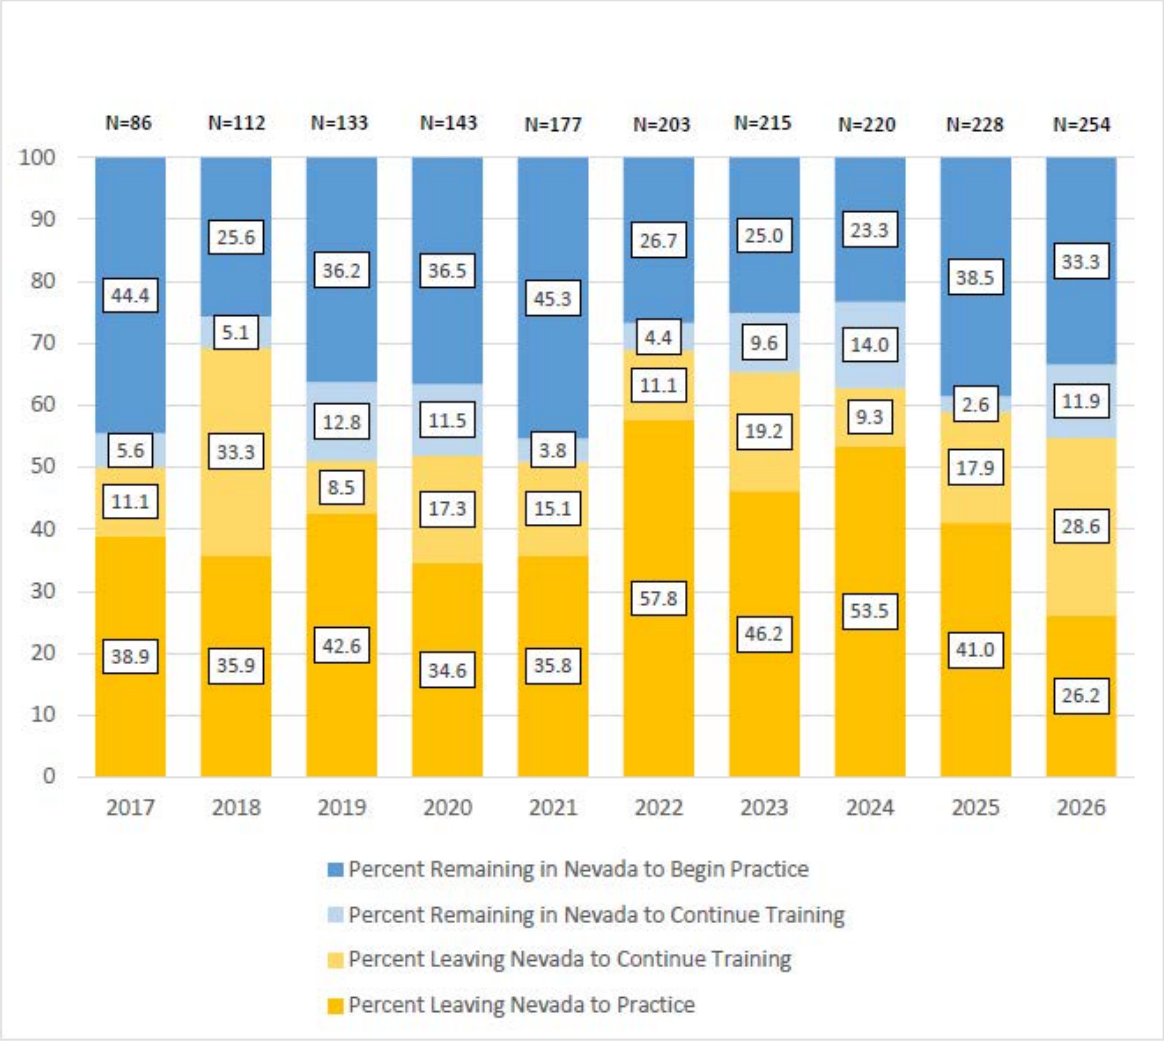

Figure 12: Employment, Training, and Location Plans for GME Graduates in Nevada – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 13 shows that the number of physicians completing GME in Southern Nevada increased from 86 graduates in 2017 to 251 in 2026 (191.9%). The percentage of graduates remaining in Nevada ranged from a high of 50.0% in 2017 to a low of 30.7% in 2018. Over the past decade, an average of 30.7% of GME graduates in Southern Nevada left the state to continue subspecialty training or seek fellowship opportunities that are in short supply or do not exist in Nevada.

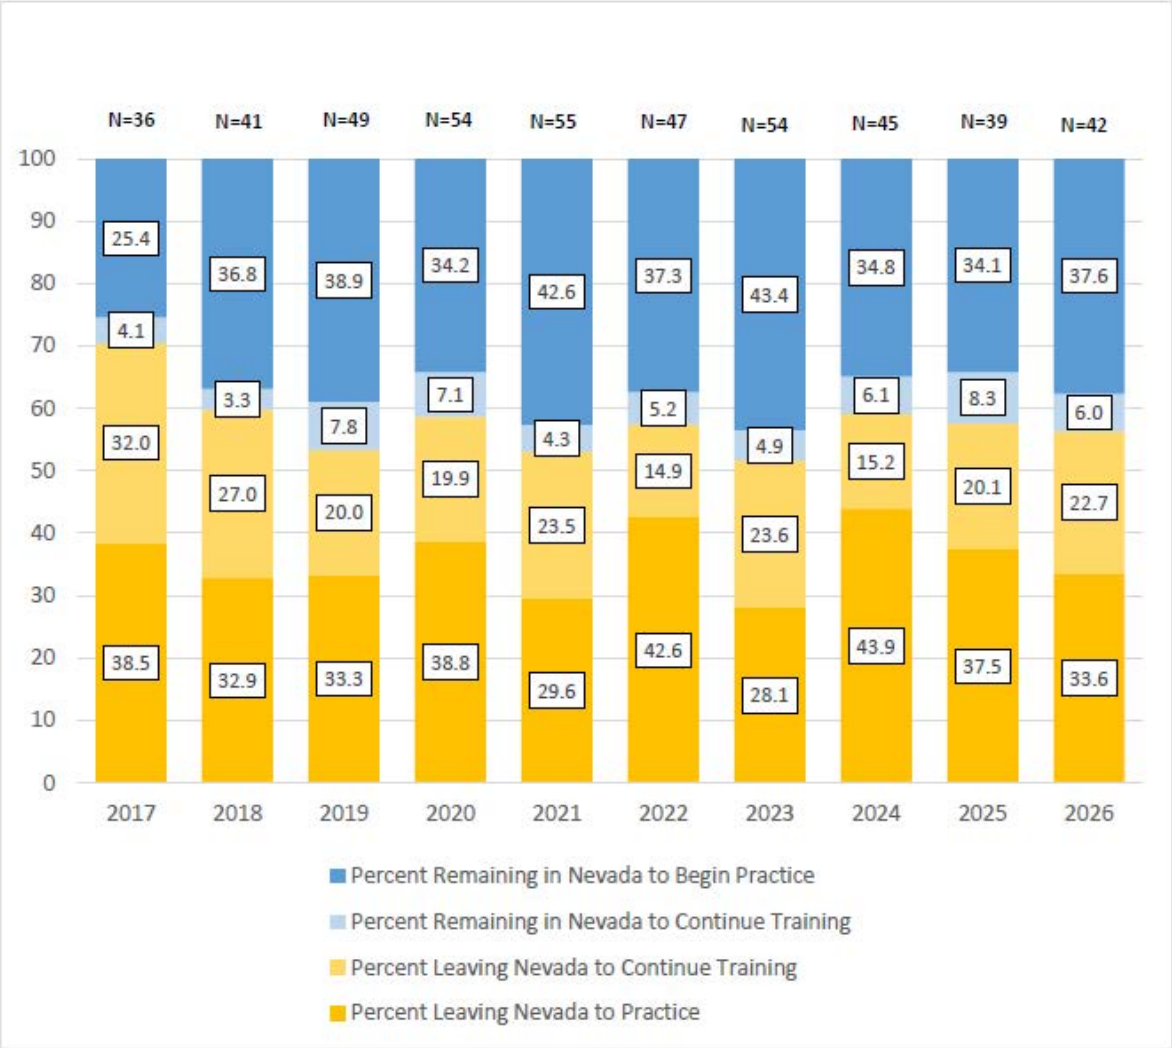

Figure 13: Employment, Training, and Location Plans for GME Graduates in Southern Nevada – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 14 reveals that the number of physicians completing GME in Northern Nevada increased from 36 graduates in 2017 to 42 in 2026 (16.7%). The percentage of graduates remaining in Nevada ranged from a high of 43.4% in 2023 to a low of 29.5% in 2017. Over the past decade, an average of 16.7% of GME graduates in Northern Nevada left the state to continue subspecialty training or seek fellowship opportunities that do not exist in Northern Nevada.

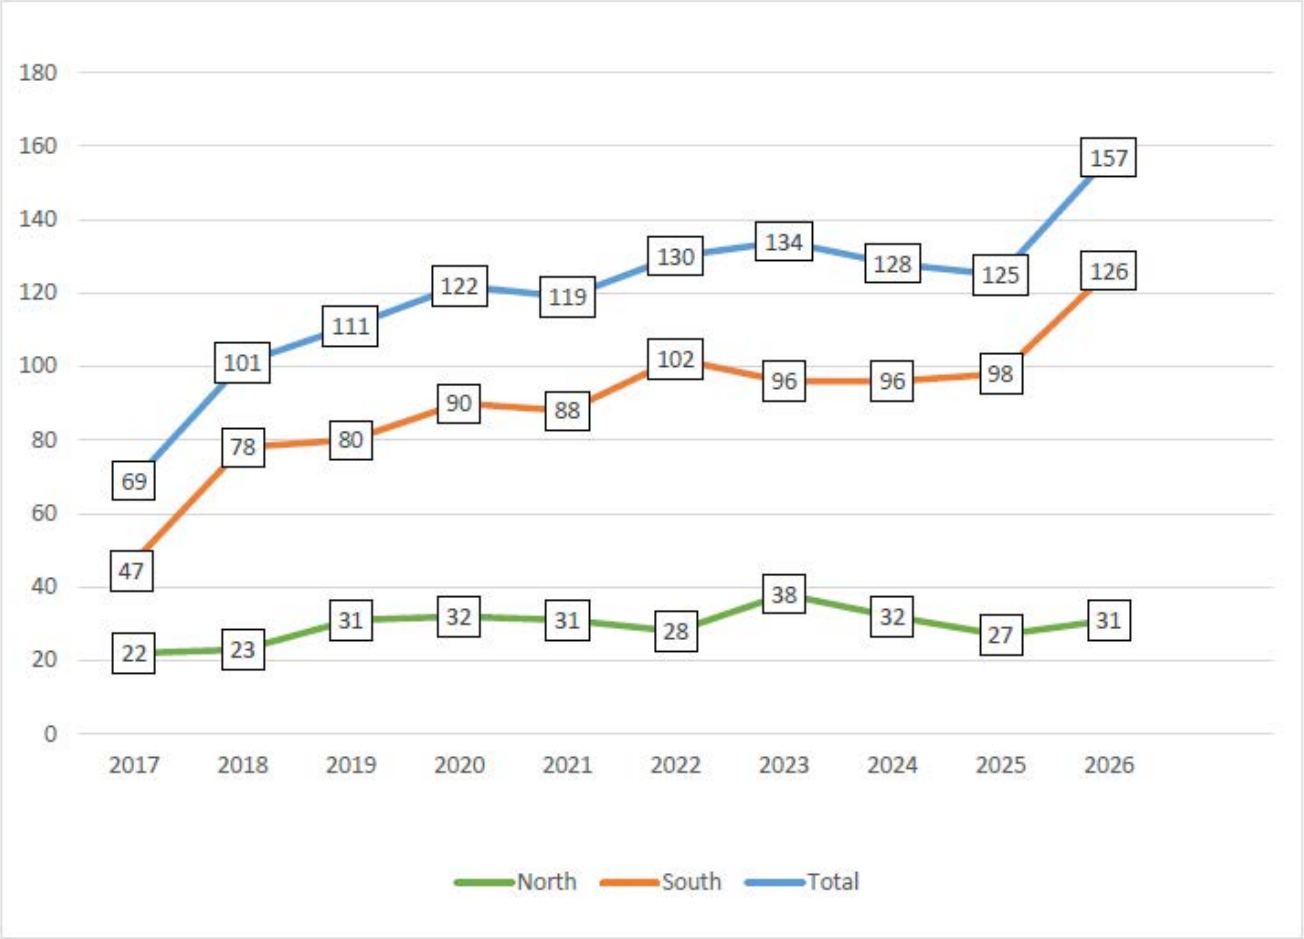

Figure 14: Employment, Training, and Location Plans for GME Graduates in Northern Nevada – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 15 highlights the number of primary care specialty GME graduates grew from 69 graduates in 2017 to 157 graduates in 2026 (127.5%). Primary care residency programs include family medicine, internal medicine, and pediatrics. The number of primary care graduates in Southern Nevada grew from 47 to 126 (168.1%). The number of primary care graduates in Northern Nevada grew from 22 to 31 (40.9%).

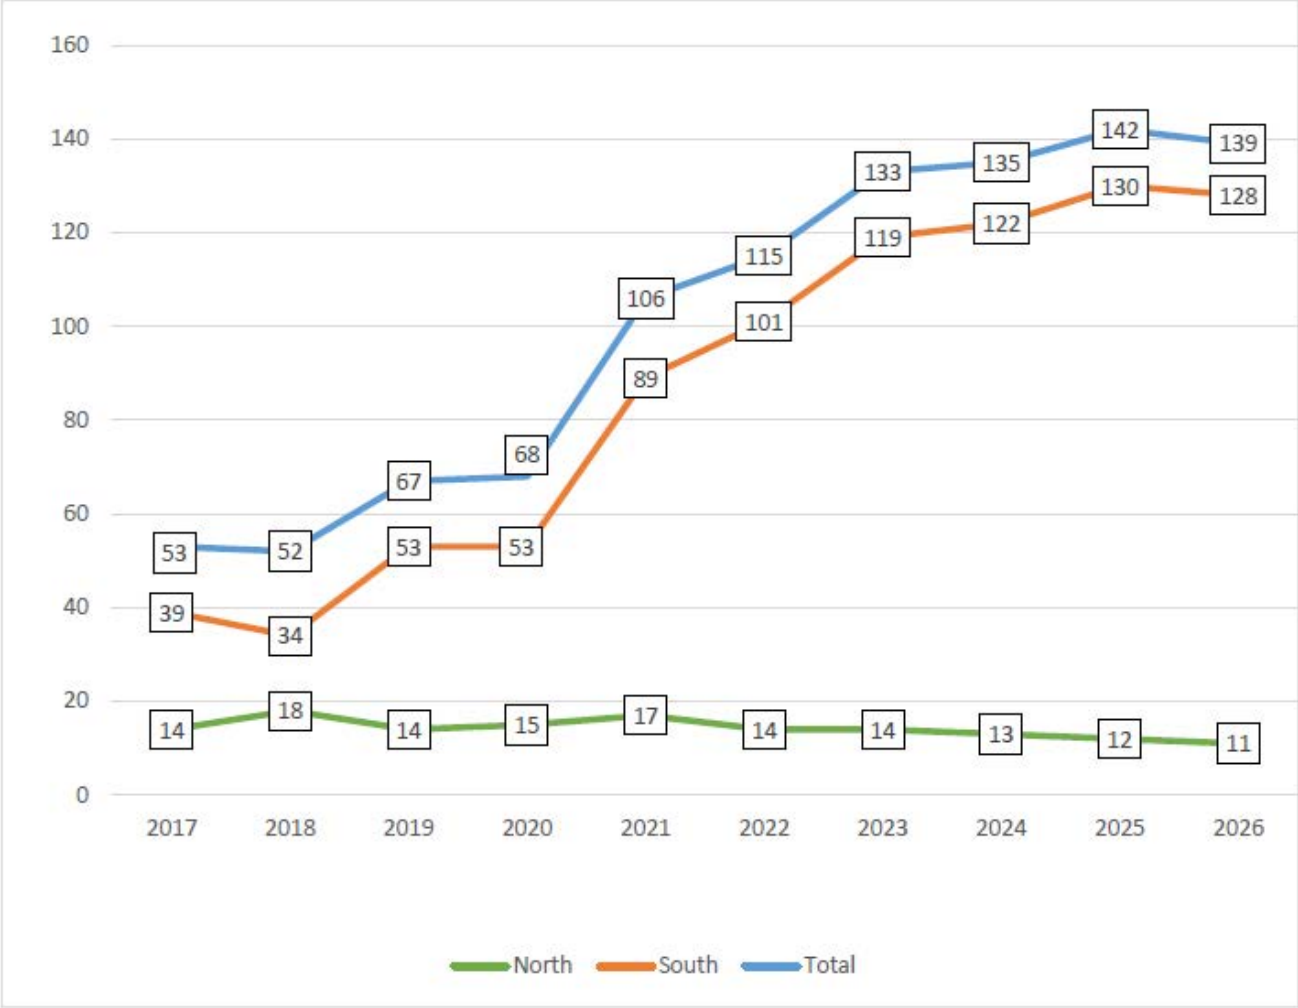

Figure 15: GME Graduates in Nevada: Primary Care – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 16 highlights trends in the number of residents and fellows completing medical and surgical GME programs in Nevada. Statewide, GME graduates grew from 53 in 2017 to 139 in 2026 (162.3%). The number of graduates in Southern Nevada grew from 39 in 2017 to 128 in 2026 (228.2%). Over the past decade, number of graduates in Northern Nevada was flat.

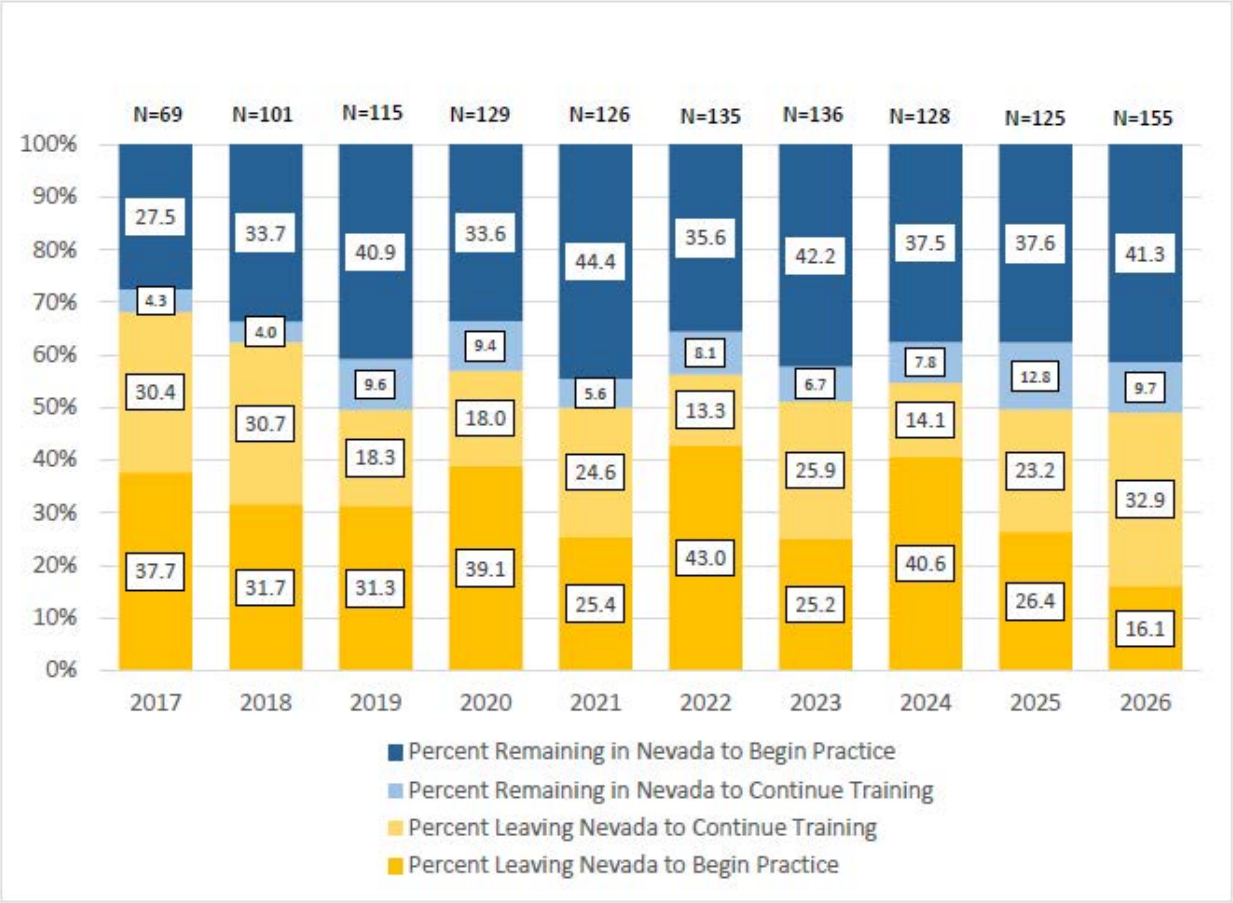

Figure 16: GME Graduates in Nevada: Medical and Surgical Specialties – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 17 highlights the number of physicians completing primary care residency programs in Nevada over the past decade. The number of primary care GME graduates increased from 69 in 2017 to 155 in 2026 (124.6%). The percentage of primary care GME graduates remaining in Nevada has fluctuated from year to year, with a high of 50.5% in 2019, and a low of 31.8% in 2017. Over the past decade, an average of 19.1% of GME graduates left the state to continue subspecialty training or seek fellowship opportunities that are in short supply or do not exist in Nevada.

Figure 17: Employment, Training, and Location Plans of GME Graduates Completing Primary Care Residency Programs in Nevada – 2017 to 2026

Source: Nevada Health Workforce Research Center (2026).

Figure 18 provides data on employment barriers facing physicians in the Nevada job market as reported by GME graduates in 2026. GME graduates leaving Northern Nevada reported ability to manage student loans and starting salary or compensation as the top barriers. GME graduates leaving Southern Nevada reported starting salary or compensation and quality of life in their specialty as the top employment barriers.

Figure 18: Self-Reported Employment Barriers in the Current Nevada Job Market – 2026

Remaining in Northern Nevada (n=19)	Remaining in Southern Nevada (n=67)
1. Ability to manage student loans (26.3%)	1. Starting salary or compensation (31.3%)
2. Starting salary or compensation (21.1%)	2. Lack of jobs in specialty (29.9%)
3. Quality of life (21.1%)	3. Ability to manage student loans (23.9%)
4. Lack of desirable shifts (21.1%)	4. Quality of life (19.4%)
5. Lack of jobs in specialty (15.8%)	5. Lack of full-time positions (16.4%)

Leaving Northern Nevada (n=23)	Leaving Southern Nevada (n=82)
1. Quality of life (34.8%)	1. Starting salary or compensation (23.2%)
2. Starting salary or compensation (30.4%)	2. Quality of life (15.9%)
3. Lack of desirable shifts (26.6%)	3. Ability to manage student loans (14.6%)
4. Lack of jobs in a specific region (26.6%)	4. Lack of desirable shifts (9.8%)
5. Ability to manage student loans (17.4%)	5. Lack of full-time positions (9.8%)

Note: Responses were summarized from Q28: "Which of the following best describes employment barriers in the current job market in Nevada for graduating physicians? Check all that apply."

Source: Nevada Health Workforce Research Center (2026).

Figure 19 provides information on incentives offered by employers as reported by physicians completing GME programs in 2026. Starting salary was identified as a top incentive regardless of whether a graduate remained in or left Nevada followed by sign-on bonuses.

Figure 19: Self-Reported Employment Incentives – 2026

Remaining in Northern Nevada (n=19)	Remaining in Southern Nevada (n=97)
1. Starting salary or compensation (57.9%) 2. Sign–on bonuses (57.9%) 3. Income guarantees (57.9%) 4. Career development opportunities, e.g. CME (26.3%) 5. Education loan repayment (21.1%)	1. Starting salary or compensation (41.8%) 2. Sign–on bonus (37.3%) 3. Career development opportunities, e.g. CME (28.4%) 4. Income guarantees (22.4%) 5. Education loan repayment (14.9%)

Leaving Northern Nevada (n=23)	Leaving Southern Nevada (n=138)
1. Starting salary or compensation (56.5%) 2. Sign–on bonus (43.5%) 3. Relocation allowances (43.5) 4. Income guarantees (39.1%) 5. Career development opportunities, e.g. CME (30.4%)	1. Starting salary or compensation (32.9%) 2. Sign–on bonus (30.5%) 3. Income guarantees (26.8%) 4. Career development opportunities, e.g. CME (29.3%) 5. Relocation allowance (22.0%)

Note: Responses were summarized from Q33, "Please identify all the incentives you received for accepting your new job. Check all that apply."

Source: Nevada Health Workforce Research Center (2026).

Figure 20 provides data on factors influencing GME graduates' decision to remain in or leave Nevada. Family and availability of fellowship opportunities were key factors identified by graduates regardless of whether they stayed in or left northern Nevada. Graduates leaving Southern Nevada reported that leaving had to do more with family and fellowship training than salary or ability to find a job.

Figure 20: Self-Reported Factors Influencing the Decision to Leave or Remain in Nevada – 2026

Remaining in Northern Nevada (n=19)	Remaining in Southern Nevada (n=67)
1. Family in Nevada (40.0%) 2. Reputation of work environment (20.0%) 3. Quality of life (20.0%) 4. Salary or Compensation (10.9%) 5. Ability to find a job (9.1%)	1. Family in Nevada (34.8%) 2. Quality of life (21.7%) 3. Reputation of work environment (17.4%) 4. Salary (8.7%) 5. Fellowship (8.7%)

Leaving Northern Nevada (n=23)	Leaving Southern Nevada (n=82)
1. Family not in Nevada (32.7%) 2. Fellowship (24.7%) 3. Reputation of work environment (32.7%) 4. Salary or Compensation (8.7%) 5. Quality of life (4.3%)	1. Fellowship availability (32.6%) 2. Family in a different state (24.4%) 3. Reputation of work environment (12.2%) 4. Never intended to practice (8.5%) 5. Salary or compensation (8.0%)

Note: Answers were summarized from Q36, "What is the most important factor that influenced your decision to remain in or leave Nevada?"

Source: Nevada Health Workforce Research Center (2026).

Figure 21: Profile of Nevada GME Graduate Survey Respondents in 2026 (n=191)

Indicator	Northern Programs		Southern Programs		Total	
	Number	Percent	Number	Percent	Number	Percent
Male	20	47.6	88	60.7	108	57.8

Average Salary ($) – Starting Practice OOS (n=45)	242,875	251,557	249,279

Appendix B: Online Questionnaire – Nevada GME Survey 2026

Since 2004, the Nevada Health Workforce Research Center has coordinated the Nevada Graduate Medical Education Graduation Survey. The survey is administered to physicians completing residencies and fellowships in Nevada. The survey assesses the future employment and continuing educational plans of graduating residents and fellows. Please complete the survey if you are graduating at any point in 2026. This survey takes approximately 10 minutes to complete. If you have any questions, please Contact Tabor Griswold, PhD at tgriswold@med.unr.edu

Program Location

Q1**.** Indicate the type of GME training you are completing this year.

- Residency
- Fellowship [If YES, skip to Q3]
- Preliminary or Transitional [exit]

Q2. Residency selected. What is the name of the residency from which you are graduating?

- Anesthesiology
- Emergency Medicine
- Family Medicine
- Family Medicine – Rural
- General Surgery
- Internal Medicine
- Internal Medicine – Primary Care
- Neurology
- Obstetrics and Gynecology
- Orthopedic Surgery
- Otolaryngology Head and Neck Surgery
- Pediatric Medicine
- Physical Medicine and Rehabilitation
- Plastic Surgery
- Psychiatry
- Radiology, Diagnostic
- Other: _____ [text]

Q3. Fellowship selected. What is the name of the fellowship from which you are graduating?

- Addiction Medicine – Multidisciplinary

AN – Critical Care Medicine

- EM – Pediatric
- EM – Ultrasound
- FM – Obstetrics
- FM – Pain Medicine
- FM – Sports Medicine
- FM – Urgent Care
- IM – Cardiovascular Disease
- IM – Critical Care Medicine (two years)
- IM – Endocrinology
- IM – Gastroenterology
- IM – Gastroenterology and Hepatology
- IM – Geriatric Medicine
- IM – Geriatric Medicine and Hospice & Palliative Medicine
- IM – Hospice & Palliative Medicine
- IM – Pulmonary Critical Care Medicine (three years)
- OBG – Minimally Invasive Gynecologic Surgery
- ORS – Sports Medicine
- ORS – Trauma
- Pain Medicine – Multidisciplinary
- Psychiatry – Child and Adolescent
- Psychiatry – Forensic
- Surgery – Acute Care (two years)
- Surgery – Critical Care (one year)
- Other: _____ [text box]

Q4. Which hospital or clinic was your primary training location during your GME program?

Facility Name: _____ [from dropdown list]

Q5. Who is the sponsoring institution for your program?

- Mike O'Callaghan
- Southern Nevada Health Dept GME
- Sunrise Health GME Consortium
- University of Nevada, Las Vegas School of Medicine GME
- University of Nevada, Reno School of Medicine GME
- Valley Health System GME
- Valley Hospital/OPTI West GME

Q6. In which county did you spend the majority of your time during your program?

- County: _____ [from dropdown list]

Q7. You did not select a residency or fellowship, please write in the name of your program.

- Name _____

Demographics

Q8. What is your year of birth? _____ [from dropdown list]

Q9. What is your sex? _____ [from dropdown list]

Q10. What is your citizenship status?

- H–1, H–2, H–3 (temporary worker)
- J–1, J–2 (exchange visitor)
- Native born U.S. citizen
- Naturalized citizen
- Permanent resident
- Prefer not to answer

Q11. Do you speak a language other than English?

- Yes or No (used to branch)

Q12. If yes, check all that apply.

- Arabic
- Chinese, including Mandarin or Cantonese
- Hindi, Punjabi, Gujarati, Teluga
- Russian
- Spanish
- Tagalog
- Urdu
- Vietnamese
- Other: _____ [text box]

Q13. Did you live in the United States when you graduated from high school?

- Yes or no (branch)

Q14, If yes, where did you live when you graduated from high school?

- City: _____ [text box]
- State: _____ [text box]

Q15. If not, where did you live when you graduated from high school?

- Select country from [from dropdown list]

Q16. You selected not listed, please write in the name of your country.

- _____ [text box]

Q17. In what year did you graduate from medical school?

- _____ [from dropdown list]

Q18. How many years have you been in Nevada?

- Three years or less
- More than three years and less than six years
- Six or more years

Education

Q19. Did you graduate from a medical school in the United States?

- Yes or no (branch)

Q20**.** Which is your degree?

- M.D.
- D.O.
- M.B.B.S.

Q21. If yes, from which medical school in the US did you graduate?

- _____ [from dropdown list]

Q22. You selected not listed, please write in the name of your medical school.

- _____ [text box]

Q23. If not, in which country was your medical school?

- _____ [from dropdown list]

Q24. You selected not listed, please write in the name of your medical school.

- _____ [text box]

Debt

Q25. Do you have educational debt?

- Yes [if YES, answer Q26]
- No [if NO, skip to Q28]

Q26. Please estimate your current amount of educational debt. (Dollars, e.g., 100000) _____ [text box]

Scholarly Activity and Research

Q28. If part of your GME training included scholarly activity or research, which of the following best describes your work? Check all that apply.

- Attended a regional or national medical conference
- Conducted a case report and a poster presentation at a regional or national conference
- Conducted a literature review in support of a research project or other scholarly activity
- Conducted an original research project with a poster presentation at a regional or national conference
- Published an original research article in a peer review scientific journal
- Received a grant award as a principal investigator or co–investigator

- Submitted a grant proposal as a principal investigator or a co–investigator
- Wrote a book chapter in a textbook related to medicine
- Not applicable, I did not undertake any scholarly activity or research

Q29. What is the focus of your scholarly activity or research? _____ [text box]

Employment Search

Q30. As you were completing your residency or fellowship, did you conduct an employment search?

- Yes, I was offered and accepted employment after conducting a search
- Yes, but I have not been offered employment
- Yes, but I have decided to pursue additional training or a fellowship (go to Q38)
- No, I was offered and accepted employment without conducting a search
- No, I am pursuing additional training or a fellowship (go to Q38)
- No, I am not looking for employment or pursuing additional training (go to Q38)

Q31. At what point in your residency or fellowship did you begin to actively explore employment opportunities, such as obtaining job information or arranging interviews with prospective employers?

- Currently exploring employment opportunities
- 2 to 5 months before graduation
- 6 to 12 months before graduation
- More than 1 year before graduation

Q32. Please indicate how actively you have searched for employment?

- Very actively
- Actively
- Somewhat actively
- Not actively at all

Q33. In your opinion, what is the best source of information regarding employment opportunities?

- Current employer
- Online advertising (delete newspapers)
- Personal networking or peers
- Physician recruiters or recruitment fairs
- State or local medical association
- Your specific GME program

Q34. What is your overall assessment of practice opportunities in your specialty in Nevada?

- There are many jobs
- There are some jobs
- There are few jobs
- I don't know

Q35. What is your overall assessment of practice opportunities in your specialty nationally?

- There are many jobs
- There are some jobs
- There are few jobs
- I don't know

Q36. How many job offers have you received in your specialty in the past twelve months? Please exclude fellowships, chief residency, and other training positions.

- No – I have received no job offers
- Yes – I have received 1 to 5 job offers
- Yes – I have received more than 5 job offers

Q37. Which of the following best describes your assessment employment barriers in the current job market in Nevada for graduating physicians? Check all that apply.

- Ability to manage student loans and debt
- Credentialing issues
- Lack of desirable shifts
- Lack of employment opportunities for spouse or partner
- Lack of experience
- Lack of full–time positions
- Lack of jobs in specialty areas
- Lack of jobs in specific region
- Lack of jobs that meet visa requirements
- Licensing issues
- Practice or work environment
- Starting salary or compensation
- Other, please specify: _____ [text box]

Q38. Are you pursuing additional training or fellowship?

Additional Training or a Fellowship (Displayed if employment search criteria are not offered or a yes to training, or pursuing additional training or fellowship)

Q39. What additional training or fellowship are you pursuing, e.g. type of fellowship program? _____ [text box]

Q40. What type of fellowship are you entering, e.g. pediatric oncology? _____

Q41. What is the name and location of your fellowship? _____

Q42. If you chose yes, why are you leaving Nevada to pursue additional training or a fellowship?

- Additional training and fellowship opportunities in my field in Nevada are inadequate or in short supply
- Additional training and fellowship opportunities in my field do not exist in Nevada
- Other, please specify: _____ [text box]

Employment

Q43. Upon completion of your current GME training, which of the following best describes your employment position or anticipated position?

- o Patient care, office–based
- o Patient care, hospital–based
- o Administration
- o Medical teaching and research
- o Other, please specify: _____ [text box]

Q44. Please identify all the incentives you received for accepting your new job. Check all that apply.

- o Career development opportunities, e.g. CME
- o Educational loan repayment
- o H–1 visa sponsorship
- o Income guarantees
- o J–1 visa waiver
- o On–call payments
- o Relocation allowances
- o Sign–on bonus
- o Starting salary
- o Other, please specify: _____ [text box]

Q45. Will you be employed or anticipate being employed in Nevada?

- o Yes
- o No

Q46. In which county of Nevada will you be primarily employed or anticipate being employed?

County: _____ [from dropdown list]

Q47. In which state or territory in the U.S. did you accept employment?

State or territory: _____ [from dropdown list]

Q48. What is the most important factor that influenced your decision to remain in or leave Nevada?

- o Ability to find a job
- o Availability of free time
- o Dealing with managed care requirements
- o Dealing with Medicare and Medicaid requirements
- o Educational debt
- o Electronic health records and administrative tasks
- o Enough work to support self or family
- o Family in Nevada
- o Family not in Nevada
- o Fellowship availability
- o Health care reform or efforts to repeal health care reform
- o Incomplete training or experience
- o Medical liability and insurance costs
- o Never intended to practice in Nevada
- o Practice setting or work environment

- Quality of life
- Salary/compensation
- Other, please specify: _____ [text box]

Q49. Would you mind sharing your starting salary? All results will be kept confidential and used to better understand employment opportunities for physicians in Nevada. (Dollars, e.g. 100000 no commas). _____ [text box]

Final Comments

Q50. What part of your training had the most important impact on your decision to stay or leave, regardless of whether you plan to stay in Nevada or relocate to another state after completing your current residency or fellowship? _____ [text box]

Q51. Do you have any additional comments about physician workforce development (e.g., GME opportunities, state support for medical education, licensing requirements for physicians) in Nevada? _____ [text box]

Thank you for completing the survey!

If you have any questions about this survey or a copy of last year's report, please contact Tabor Griswold, PhD, Office of Statewide Initiatives, tgriswold@med.unr.edu.

If you want additional information on research undertaken by the Nevada Health Workforce Research Center and the Office of Statewide Initiatives, please visit Office of Statewide Initiatives.
